DNA - September 28

Lean more with *Jason Fitzgerald* about infectious diseases as well as DNA Technology as you analyze virus DNA to see what is causing a fictitious deadly outbreak.

Water Bears - October 5

What microscopic creatures are living in the pond at SIC? Find out with *Aaron Poole* as you take a sample and view them with the microscope! You will also get to see tardigrades, aka water bears.

Note: Class sizes are limited & filled on first-come basis.

Gradients - October 12

Help determine the identity of materials as you calibrate diffraction gradients with *Aaron Aul*.

Tardigrades!

Also known as *Water Bears*, these microscopic animals are almost indestructible and can even survive in outer space.
