

Southeastern Illinois College is a two year, public community college. It is not, however, an open access, public place. Therefore, it is the policy of Southeastern Illinois College that solicitation, canvassing, distribution, or selling of merchandise by non-college personnel or organizations is prohibited unless the activity is sponsored by a College department or club and has received written approval from the President or his/her designee. Any citizen, organization, college-sponsored club, employee, or student must complete a written request from the Office of the Executive Dean of Student Services. Only those activities which are consistent with and promote the mission of the college will be granted approval. Any individual or organization who has been denied their request may appeal to the President whose decision is final.
