

Students who attend any college sponsored event off-campus and who travel to that event via college provided transportation must return to the campus via that same mode of transportation. In these cases, students may not ride to the event via college provided transportation and return to campus in vehicles operated by friends or other persons.

The only exemption is for students who leave an event with a parent or legal guardian. In these cases, the SIC sponsor/coach must receive a written request from the parent/legal guardian. A text or email may suffice for a written request.
