Absent: Student Representative Reagan Lees

General Purpose for Meeting:

Strategic Planning Committee Summary for 2022

Barr - Good Afternoon everyone. Please consider this email our April 29 E-Meeting for the Strategic Planning Committee. Please reply back to the email as having received and read as that will be our form of attendance.

I want to thank everyone for their hard work this academic year. We have accomplished a lot together. Attached is the Executive Summary detailing the efforts in developing our new Strategic Plan. We are on track for completion of our strategic sub-initiatives this fall. Over the next few months, the executive steering committee will work on compiling information from the Task Force reports on sub-initiatives that are due today. When we reconvene in the fall, proposed sub-initiatives from the work you all have reported will be compiled at the August meeting.

I will keep this email short, as I know everyone has finals week on their minds. Read the attachment and respond. Know that your work is important and vital to the future direction of the College. Take this moment to reflect on everything we have done as we prepare to move forward as a service to our community and the success of our students.

Meeting Notes/Tasks Accomplished:

Challenges and Assignments:
