

# Performance Scholarships

---

To apply for one of the scholarships below, you must contact the faculty member or supervisor listed below.

❖ **Music**

Music scholarships are based on academic standing, musical ability, letters of recommendations, and an individual audition with the music director (set by appointment). Music scholarship students are expected to participate in all musical productions and activities. Students are not required to major in music; however, they must be enrolled in music theory courses, private lessons, and an ensemble in order to stay on scholarship.
