The bolded classes on this curriculum guide indicate the minimum a student must complete in order to receive an Associate degree. See advisor for specific transfer information.

\* AG 121 will be taught by University of Illinois professors using distance education technologies to students attending Southeastern Illinois College and other participating Community Colleges in the state of Illinois. Participating community colleges will offer ACES ACCESS courses through their regular registration process. Students will pay the standard tuition rate of their community college and will earn course credit from their community college. These credits can then be transferred seamlessly to Illinois or other four-year institutions. All lectures will be presented over the internet in real time using Elluminate as the classroom instructional platform (see <a href="https://www.elluminate.com">www.elluminate.com</a>). Students will be expected to participate in each lecture online on the day and time scheduled. Two Saturday labs (dates to be determined) will be held on the University of Illinois at Urbana-Champaign campus.
