At Least 26 Hours		Credit Hrs
Total Hours		

Work Experience

No More Than 21 Hours		Credit Hrs
Total Hours		

General Education Courses _____

Approved Core Courses _____

Work Experience _____

At Least 62 Hours Total _____

NOTE: PSYC 121, a PHYSICAL SCIENCE (PHYS OR CHEM) and MATH 144 or higher is recommended for those interested in pursuing a Bachelor's Degree through the Capstone Program at Southern Illinois University-Carbondale.

A unique aspect of this program is the awarding of credit for non-collegiate prior industry training, learning and work experience. The student may request evaluation of military or industry-based training workshops, seminars and certificates to meet some of the requirements of his/her individual program goals. A faculty member and/or department chairperson related to the student's area will meet with the student to determine if and how specific training or work experience meets identified outcomes of the student's goals, document that determination, and make recommendations for the amount of credit to be applied to this degree. A maximum of 21 semester hours of credit may be earned through this method under the Occupational Work Experience Assessment Process. See a college counselor for the sheet titled "Occupational Work Experience Assessment".

NOTE: Students may also use the established processes for CLEP (College Level Examination Program) or proficiency testing to obtain credit toward this degree. See the current college catalog for information regarding these processes and policies.

Contact the Career and Technical Education Office at (618) 252-5400 ext. 2300 or 2301 for more information and to schedule an appointment.
