

ASSOCIATE DEGREE NURSING PROGRAM ADMISSION POLICY STATEMENT

Any applicant to the Southeastern Illinois College Associate Degree Nursing Program must follow the Admission Procedure approved for the Southeastern Illinois College Associate Degree Nursing Program. This procedure includes the admission procedure for Southeastern Illinois College.

Admission to the program is non-discriminatory concerning race, creed, religion, gender, national origin, or disabling condition within the ability to carry out performance to the standards of the profession.

Preference will be given to in-district residents of Southeastern Illinois College District #533. Full-time employees of Southeastern Illinois College with staff/spouse/dependent waivers will be considered as in-district for ranking purposes. Proof of residency is required at the time of application to determine residency status, and must be submitted no later than the deadline date for application to the program for ranking purposes. Any change in residency after the application deadline will not result in a change in the acceptance list for that year. An out-of-district student who establishes residency after the application deadline may reapply the following year as a resident of District #533. Special Counties: See College Handbook.

The information in this admission criteria packet therefore is the correct guidelines to follow for the Southeastern Illinois College Nursing Program requirements for entrance.
