

# THE ASSESSMENT PROCESS AT SOUTHEASTERN ILLINOIS COLLEGE

## CLOSING THE LOOP

*This step is where we examine whether or not the changes implemented as a result of a prior assessment actually worked.*

## IDENTIFY STUDENT LEARNING OUTCOMES

*This step states what students are expected to know or be able to do upon completion of a course or program.*

## APPLY RESULTS

*This step allows for faculty and staff to properly utilize and communicate the assessment results.*

## Continuous Improvement of Student Learning

## DESIGN A PROCESS

*This step creates the data collection plan to test whether students are learning the outcome(s) identified. At this stage, assessment plans are peer reviewed and revisions may occur for clarity and better understanding.*

## COLLECT AND ANALYZE DATA

*This step gives meaning to the information collected and determines whether students met the student learning outcome(s) being assessed.*
